

Public Speaking for Psychologists A Lighthearted Guide to Research Presentation, Jobs Talks, and Other Opportunities to Embarrass Yourself

By Paul J. Silvia

American Psychological Association (APA). Paperback. Book Condition: New. Paperback. 176 pages. Dimensions: 7.9in. x 4.9in. x 0.4in. Public speaking is one of the most common fears. Few people look forward to talking in front of others and even fewer do it as effectively as they could. A career in psychology and its related fields involves extensive public speaking, so you will need to learn to do it well. With time and practice, you too can become a confident and effective presenter. Public Speaking for Psychologists is a practical and lighthearted guide to planning, designing, and delivering a presentation. The first half of the book covers the nuts-and-bolts of public speaking: preparing a talk, submitting an abstract, developing your slides, managing anxiety, handling questions, and preventing public-speaking disasters. The second half applies these tips to common presentations, such as research talks, poster presentations, job talks, and talks to lay audiences. Throughout the book, the authors - both experienced presenters - offer realistic advice, useful tips, and humorous stories of embarrassing mistakes they'll never make again. This item ships from multiple locations. Your book may arrive from Roseburg, OR, La Vergne, TN. Paperback.

Reviews

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- Brennan Koelpin

Comprehensive guide! Its this type of very good read through. It is actually written in simple words and phrases rather than difficult to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.
