Not illustrated. 1884 edition.

Excerpt: .Psychology, vol. i. p. 97. The best words are those from which long use has worn away all, or nearly all, traces of their origin. It is easy, however, in this manner to enumerate a few of the leading ways in which assertions may be misunderstood, and even to write a loose and general homily upon human liability to error in this respect. But there seems to me very little practical value in so doing. The practical question would be, --What is it incumbent on us to do, for the purpose of detecting, and so avoiding, misinterpretation? And to answer this with any real completeness would lead us further afield than we can here afford to go. But as regards the first of the two kinds of misunderstanding, it may perhaps be suggested as a broad general rule that inquiry into meaning, for the...

Reviews

Extremely helpful for all class of people. We have read through and that i am confident that i am going to going to read through again again down the road. Its been designed in an exceedingly basic way in fact it is simply following i finished reading this pdf in which in fact altered me, alter the way i think.

-- Noel Stanton

Absolutely one of the best pdf We have ever read. I really could comprehended every little thing using this written e book. I am easily could get a satisfaction of reading a written publication.

-- Dr. Odie Hamill
