Brand New Book ***** Print on Demand *****.Excerpt from Vaccination: Its Necessity, Control, Efficiency, and Safety In America, the demagogue is ready to proclaim that all such measures are contrary to the genius of our form of government. Let us dwell for a while upon this objection. The assumption that the individual has the right to protect, or abuse and neglect, his own health at pleasure, is false in morals, and, as we believe, equally in opposition to the social and statutory law. And, as a numerous population is of the highest importance to the strength and welfare of a nation, it should be the anxious study of legislators to favor that end by the enactment of such laws as will best protect the health and lives of the people. It is a well known fact in the economy of population, that the conditions which most favor the multiplication of the human species are health, the enjoyment of peace, and an abundance of food; and, per contra, of necessity, the conditions which most seriously retard the increase of population are pestilence, war, and scarcity of food. The Eastern nations were, from the earliest ages of historic record, visited by occasional pestilential plagues, so terribly devastating in their career as almost to depopulate whole cities and extensive districts of country. Yet historians do not hesitate to say that, vast as was the mortality from the plague, it was even exceeded by that of small-pox. Up to the last one hundred and fifty years it was the most frequent, the most fatal, and the most injudiciously treated of all the pestilences that have afflicted mankind. Notwithstanding the accumulated experience of practice, the medical profession during all...
