The Social Security Administrations management of the Supplemental Security Income (SSA) program was reviewed to determine the causes of problems resulting in over 1 billion in erroneous payments in 2 years. A principal cause of errors is a lack of accurate information on income of recipients from other federal agencies. This information is used in determining eligibility and benefit payment amounts. GAO estimated that accurate benefit information from the Veterans Administration (VA) and the Railroad Retirement Board (RRB) would reduce overpayments by 60 million a year, correct annual underpayments by 4 million, and remove 35,600 recipients from SSI rolls. This item ships from La Vergne, TN. Paperback.
